seec

the seec esp. paige adams my rep @ the seec has been a wonderful helpful
she gets back to me in timely manner or points me in the rite directions
i have sent e mails to her informing her how helpful she is and wish she can be cloned

back a few years i had a different rep andrew.... i forgot his last name since it was for a state office and boy
he wasn just the opposite of paige i wasn't please with him as my contact

i might add nancy has been a great help as well when i paige is out shes steps in

i might add love the ecris since i type with one finger its grrreat to add contributors and expenses along the way
and save it so its not all done at the end of the reporting period
